

JOHN MAR V. FULTON

Tanza, Cavite • anonymous.raizel@gmail.com • github.com/exenotmaw

PROFESSIONAL SUMMARY

Aspiring software engineer with a focus on prompt engineering, and system automation. Dedicated to building clean, scalable, and user-centric digital experiences.

EDUCATION

CvSU - CCAT August 2026

Bachelor of Science in Computer Science

Amaya School of Home Industries | Senior High School | Technical-Vocational Livelihood - Information and Communications Technology (NC II)

Amaya School of Home Industries | Junior High School | Technical-Vocational Livelihood - Information and Communications Technology (NC I)

KEY PROJECTS

House Sight Tanza | Telemetry & Valuation Platform

- A property visualization and mapping tool for local real estate insights.
- Engineered an advanced telemetry suite and real estate valuation platform

Signatura | E-Commerce Archive

- Designed a secure, classified tech-noir archive for limited-edition, creator-forged assets.
- Developed a custom terminal-driven user interface utilizing advanced JavaScript and GSAP.

Continuum | AI Command Center

- Built a TypeScript-based AI-driven content management and drafting platform.
- Streamlined the creation, organization, and generation of digital content.

Interactive Interface Concepts (ChipSim, Ocular, Luminaryx)

- Programmed experimental frontend repositories exploring mathematical algorithms, particle generation, and custom visual rendering.
- Built an AI-powered study companion capable of transforming documents into sophisticated academic assessments.

SKILLS & COMPETENCIES

Languages: JavaScript, TypeScript, Python, HTML5, CSS3, SQL

Frontend: React, Tailwind CSS, GSAP (GreenSock Animation Platform)

Backend & Databases: FastAPI, PostgreSQL, Supabase, DBeaver

Tools & Architecture: Git, GitHub, RESTful APIs, Vercel, Data Pipelines

Others: Video Editor, Prompt Engineering
